

## Manage Your Safety and Security Virtually Anywhere

MobileSafe with GPS is one of the most innovative mobile personal emergency response systems on the market today. The MobileSafe with GPS medical alert system offers seniors and vulnerable individuals the freedom and security to experience what life has to offer, with the confidence that emergency help will be available at all hours of the day or night, whether at home or on the go.

MobileSafe with GPS is designed to provide seniors, at-risk individuals, and their families with the greatest peace of mind that comes from having access to 24/7 emergency medical monitoring from virtually anywhere with a simple press of a button.

Advanced features include: instant hands free two-way voice communication with the SafeGuard Emergency Response Center, automatic fall detection, and GPS location services.

MobileSafe with GPS is the ideal medical alert solution for individuals that want the comfort and protection of a personal emergency response system wherever they may be.
